

OUR POSITION AND OUR CONDITION TEACHING

All spiritual life and growth is based on the principle of position. It can be summed up in one word SOURCE. By this Stanford means we must allow what we are in fact to become what we are in experience. The Lord is our source and we are complete in Him. We must let this reality become an experienced reality. **But only the believer who knows, grows.** It is faith in the facts of our position that gives us the daily benefits of growth in our condition(experience). Growth comes when our daily experience is lived from our position (source)

We must see Jesus as He is and then we become like Him
